Experience

Credit.com / React Developer

Aug 2021 – April 2026, Salt Lake City, UT

Primary REACT developer responsible for maintaining the front-end of the logged-in experience of a large user-base. Utilized AEM and other Adobe products as a CMS and cloud solution.

Migrated legacy sites to a cutting edge NX monorepo environment, working closely with LLM agents to create an automated test suite with rigorous coding standards and a dramatically quicker workflow.

USU NCHAM / ASP.net Developer

June 2020 – Aug 2021, Logan UT

Headed a visual redesign of a legacy website built on ASP.net. Worked remotely to plan and tackle logical and layout changes as well as backend bug fixes.

WebArc Technologies / Magento Developer

June 2019 – August 2019, Logan UT

Built and maintained eCommerce websites for various clients. Front-end design using PHP, XML, MySQL, CSS, HTML, JavaScript.
